TOSHIBA

TCx SMART | wing

A smart self-service solution with dedicated input and output wings

TRANSFORM YOUR SELF-CHECKOUT TO
ADAPT, GROW AND THRIVE

Part of Toshiba's S-Series of self-service solutions, TCx® SMART Series provides **S**elf-service **M**odularity that **A**ccelerates **R**etail **T**ransformation.

Primed for grocery and convenience, the TCx SMART | wing provides a contemporary, modular self-service solution capable of adapting to various customer checkout scenarios. Its stylish design seamlessly integrates with store aesthetics, and the input and output wings provide a fast and intuitive experience for savvy shoppers.

The TCx SMART | wing allows retailers to continuously optimise operational performance with the right mix of technologies to create exceptional checkout moments. From managing loss prevention to improving customer service, various security options can be enabled with the use of computer vision and artificial intelligence technologies, helping to protect profits and minimise interventions.

KEY **BENEFITS**

Flexible configurations to tailor by customer requirements

Elegant design aesthetic enables easy customer adoption

Reduced cost of checkout whilst enhancing customer experience

Loss prevention features help reduce shrink

TOGETHER COMMERCE
