FX131 bi-optic scanner scale

Features

- Low profile scale kit for use with the bi-optic Datalogic Magellan 8300 & 8400 scanner, designed for easy integration into checkout units
- Supplied as a scale kit only for local integration with scanner or as a complete scanner scale
- Weight only display
- Column mounted and a choice of single or double sided displays
- 360 degree, five-sided scanner eliminates the need to orientate goods, for faster, easier operation
- Flash memory allows quick, easy updates and in situ servicing
- For ease of maintenance, the scale offers in-built error messages that can be used by your EPoS system to provide remote diagnostics and support.

Specifications

- Vibrating beam technology for fast, accurate weighing
- Robust compact design with integrated electronics & stainless steel pan
- Capacity: 15 kg x 5 g
- Critical dimensions: 400mm x 292mm x 100mm
- Scale to Epos interfaces: RS232 & USB
- Scale protocols: Avery Berkel weight only, Avery Berkel Price Computing, Mettler Toledo L2 & 82/7, Dialog 02/04/06, BES, SMA.
- OPOS weight only & JPOS weight only drivers also available
- Scale can be operated from the mains or powered directly by the scanner
- Scanner: Datalogic Magellan 8300 - 52 scan lines, 3900 lines/sec, Datalogic Magellan 8400 - 52 scan lines, 5200 lines/sec. Power consumption nominal 7 watts whilst scanning & 4 watts while in standby. Supports most standard bar codes including GS1 Databar (RSS). Epos interfaces RS232, USB & IBM RS485
- Scanner operates from the mains as standard
